Dear Fellows,

We still have some space for the research articles and Plenary articles presented during 35th Pakistan Congress of Zoology (International) held at Centre of Excellence in Marine Biology, University of Karachi on March 1-4, 2015. The Proceedings is in the process of composing of articles. Please rush with your articles. We will wait until June 1, 2016.

(Prof. Dr. A.R. Shakoori)

April 26, 2016

Subject: Proceedings of 36th Pakistan Congress of Zoology (International)

Dear Colleagues,

I hope you enjoyed your stay and the meeting in Jamshoro. I sincerely apologize for any inconvenience that you may have encountered although the local organizing committee did its best to make your stay comfortable and your academic sessions enjoyable.

Now is the time to do some documentation work. **The last date for the submission of research articles for Proceedings of the 36th Pakistan Congress of Zoology (International) is July 31, 2016. No research article will be accepted for publication received after this date.**

I am sure you remember that only those articles will be accepted for publication, after proper refereeing, which were presented in the Congress. The research articles sent through E-mails alongwith a hard copy in duplicate will definitely quicken the process of publication.

I urge you to kindly stick to the deadline and help us in bringing out this year's publication too in time.

Your cooperation will be highly appreciated.

With best wishes.

Yours sincerely

(Prof. Dr. A.R. Shakoori)

P.S. It is just to remind you that HEC will recognize our Proceedings only when we publish scientific articles and print it on regular basis and on time. Your contributions will help us in achieving the objectives.
